### SUPPORT by 19 Electrifying Acts/Tracks from The Worlds of Atmospheric and Blissrock Music Orbits

### FORKSTER'S DAILY BAND REVIEW PR Website

Artwork and Design by Gardy Perez Ruiz

11:56 NST on 25th of April, with a jolting magnitude of 7.8 rocked an earthquake which will suffocate the people of Nepal for unthinkable amounts of years ahead and then 2 weeks later a mind-bobbling second one hit. The devastation has killed over 9,000 innocent people and an estimated 2.8 million people are living in the open terrains in need of assistance and protection. At least 200,000 houses have been destroyed and another 190,000 badly damaged. The families are frightened/terrified and homeless, too afraid of aftershock's to return home. Unfortunately, it doesn't stop there. With the rainy season/monsoon warnings approaching in weeks it is 'urgently needed' to protect thousands of families by administering/contributing and supplying plastic sheeting and tarpaulin to create shelters for 'now the present'. This is something as humanitarians we need to be aware of in helping whenever and however long we can, like I said earlier it will be unreal number of years to get these people back to safe times with livable homes. The good people of Nepal need our support.

FORKSTER'S good friends at **Patetico Recordings** are not only recognising this tragic situation, but have taken action forward in supplying *future relief funds & hope* for the good people of Nepal through the power of music. "Rock Back for Nepal" compilation Volume 3 (of 3) is an impressive assortment of over '19' ace rock music artists from the atmospheric/blissrock rainbows around our 'grooving & moving' music charters. My ear rock module orbits have been "Absolutely" rocking out' to every massive track so far and 'without question' I know the further additions will roar out the music voltages too. The throughout production and song/artistry quality is magnificent, 'super compilation'...

### FORKSTER RATING: 10/10

Patetico Recordings are 'heavily involved' in producing heartfelt music projects needed in raising monies for people/countries in dire need due to catastrophic surroundings. In 2011 they released "Rock Back" for Japan in providing music money relief for the horrific earthquake/Tsunami that was slammed on the countries innocent peoples. It went on to be an extremely successful provider in raising much needed monies for Japan's 2011 disaster. For it they put out an 8-Disc Compilation due to high demand to help/constant contributions coming in regularly with 100's of music artists participating throughout it. They were able to raise money and bring awareness on their magnificent parts and *100 percent of the donations went to the relief efforts*. 'ROCK BACK for Japan' Compilation Series Hit The TOP TEN and Certain Volumes Hit #1 on the Indie Rock Chart for Amazon per sale.

**Volume Three** for "ROCK BACK for NEPAL" is part of a Compilation Series of 3 with raising as much money as possible for the 'good people' of Nepal. This is the early edition preview for it and the official release will be with the payment link in purchasing and contributing to Nepal Earthquake Relief on Volume 3 - "ROCK BACK for NEPAL" next week.

To read on FORKSTER reviews on 1st Two "ROCK BACK for NEPAL" Albums Click on Them here - **VOLUME ONE & VOLUME TWO**.
