Is it art? Is it music? It could be described as an arts collective or an experimental music group, but in reality, what is it? With the help of more than 200 hours of footage compiled from its inception in the year 2000 until today and interviews with fans, collaborators and contributors, this documentary, the first of its kind about this enigmatic group, will try to answer the question: What is Matotumba?, documenting their career in the world of art and experimental music in Puerto Rico for more than a decade. Matotumba (MTTMB) is an electronic music group formed in the year 2000 by a collective of visual artists from Puerto Rico. It's mostly known for its experimental music proposal and the inclusion of visual-art at their live shows. Currently the group's line-up is composed of Jorge Martínez Picón, Milton Ramírez Malavé and Héctor Román and often collaborating with fellow experimental artists such as Robin Alicea and Jose Vega (Shhh, PPRSS), Ariel Hernández (Similar, Introdujos)... *Written by Milton Ramirez Malave*
